

**COMMITTED
TO IMPROVING
ROAD SAFETY!**

MEMBERS OBTAIN A HOST OF BENEFITS:

THE "VÉRIFICATION" NEWSLETTER

This eNewsletter keeps you informed and updated on news concerning transportation, mechanical inspections and sustainable development practices.

WHAT'S NEW?

You can now receive a newsletter by email to stay abreast of news relating to the transport industry.

WEBSITE

Road safety is a priority for us and for your business. Through our website (www.asmavermeq.ca), stay on top of transport industry news by downloading information documents and by accessing our digital library of all the "Vérification" newsletters.

ONGOING TRAINING IN PARTNERSHIP WITH PROLAD EXPERTS

For mechanics who carry out mechanical inspections and those registered in preventive maintenance programs (PMPs), as well as for managers and drivers working for transportation businesses:

- Course on pre-departure verification for drivers of transportation businesses
- Course on Bill 430 concerning owners and operators of heavy vehicles
- Access to the technical expertise service
- Course on the installation and adjustment of wheel bearings and the installation of automatic slack adjusters
- Course for managers, planners and foremen working in heavy vehicle mechanical maintenance workshops

REPRESENTATION AND LIAISON

Take part in advisory panels:

- ASMAVERMEQ/SAAQ
- Government-industry
- Traffic check and prevention

In the interest of mechanics inspecting light and heavy vehicles and of those who have joined the PMP, we continue to promote ways to make improvements.

CONFERENCE

ASMAVERMEQ holds an annual conference to which all players of the transport industry are invited. This annual event helps to keep abreast of industry news, allows industry players to meet government representatives, and fosters networking. It also allows participants to share good business ideas.

TRADE MISSION

When appropriate, ASMAVERMEQ organizes a business trip to maintain ties with other players of the transport industry.

HEAVY AND LIGHT VEHICLES COMMITTEES

To ensure that all light and heavy vehicles are safe, these committees issue recommendations to government authorities. For example, to move forward with the enhancement of the environmental program by promoting the mandatory inspection of resale vehicles within the ASMAVERMEQ network.

PARTNERSHIP WITH TRANSPORT MAGAZINE & L'ÉCHO DU TRANSPORT

Transport Magazine and L'Écho du transport have worked with ASMAVERMEQ for more than 25 years to promote the interests of our members. These partnerships also promote environmental improvement through the "Air Pur" contest.
